

Clubs Program 2025

Powered by Evolve

"Advancing Tennis Through Sports and Human Science"

The Evolve Clubs Program partners with clubs and academies to develop high-quality tennis schools. As the sports industry continues to grow and evolve, teaching standards become increasingly competitive. Our goal is to help you stay ahead.

What to expect from the clubs program:

A comprehensive, science-based teaching framework adaptable to all levels of players—recreational, competitive, and high-performance. The program integrates fitness and mental training routines that support player development and help reduce early dropout rates among young athletes.

The Evolve clubs program is a great option if:

- You own or manage a club with growth potential but limited resources.
- You want to develop a high-performance tennis team within your school.
- You're struggling to deliver high-quality coaching and want to expand your business.

Clubs program structure:

We collaborate with your club or academy year-round, offering both on-site (occasionally) and remote support (monthly). Our services cover key areas:

Business

Business Planning Marketing Procedures Human Resources

Tennis

Science-Based Programs Tennis Courses & Events Coaching Support

Development

Coach Workshops Student Clinics Career Development

We also respond to any questions outside of scheduled appointments **within one business day—free of charge.**
